DEPARTMENT OF TOURIST DEVELOPMENT

11:14 a.m.

Commissioner Susan Whitaker requested action on the following matter.

Statewide

- 1) Commissioner Whitaker presented a request for approval of a project and to utilize an Alternative Delivery Method on a project for **Civil War Interpretive Exhibits** at various Welcome Centers statewide, and selection of a designer to design and supervise the project. She said that this project will construct Civil War Exhibits to commemorate Tennessee's Civil War Sesquicentennial at various Welcome Center locations to provide educational information and encourage travelers to visit sites across Tennessee. She said the displays will be permanent and located in the Centers' primary exhibit area.

Treasurer Lillard noted that the General Assembly approved the project in 2006 and questioned the delay in bringing it forward. Commissioner Whitaker responded that the dollars were appropriated to Finance & Administration, and they had just recently been requested to become the lead agency. Treasurer Lillard asked what the timeline was for finishing the exhibits, and was told "about 18 months". Assistant Commissioner Tom Lightsey stated that they should have the first four centers completed in the first year. He said that, based on the concepts and costs, they would expand that and keep going. Treasurer Lillard asked for a letter detailing their plans and anticipated time lines. Comptroller Wilson noted that the Tennessee Legislature met in December of 1860, and agreed they need to move on this quickly as time draws near. The Commission approved the request as presented, with the selection of a designer referred to the Subcommittee, with authority to act.

Estimated Project Cost:	\$1,000,000.00

TENNESSEE BOARD OF REGENTS

11:17 a.m.

Chancellor John Morgan requested action on the following matters.

Tennessee State University, Nashville, Davidson County, Tennessee

- 1) Chancellor Morgan presented a request for approval of a project for **RaSP Facility Buildout** at Tennessee State University, and selection of a designer to design and supervise the project. Secretary Hargett began a discussion regarding campus plant funds and requesting additional information from the Board in order to have a better understanding of the history and how the funds are being accumulated. Chancellor Morgan responded that his concerns were legitimate. He stated that it is significantly different from institution to institution because things happen in different ways, but it was a conversation they were willing to have. Secretary Hargett said he wanted to make sure everyone was dealt with fairly, and suggested there might need to be a policy to help everyone understand what the expectation is. Comptroller Wilson stated that if the updated report was not received in plenty of time for the next meeting, he would be disinclined to go forward with any project involving campus plant funds. The Commission then approved the project, with the selection of a designer referred to the Subcommittee with authority to act.

Estimated Project Cost: \$1,469,148.00

Executive Subcommittee Report

- 1) Report received of final action taken at the State Building Commission Executive Subcommittee meeting held on September 20, 2010.

Special Item

- 1) **Consideration of the Executive Subcommittee's recommendation, in concept, of a job description, plan to advertise and selection process schedule for the position of State Architect.**

Secretary Hargett made a motion to adopt the proposed job description and selection process and delegate to the Executive Subcommittee, with authority to act, the selection and approval of the State Architect, including, but not limited to, the review of prospective candidates, interviews, negotiating of salary, start date and other pertinent details including the expending of necessary funds to adequately advertise.

Commissioner Goetz stated that they have struggled for years to try and build the kinds of staff and leadership that is needed and expected in this area, which has been a challenge with the pay scale being offered so far out of line with the private sector. He said they have a lot of very complicated projects and that is not going to diminish over time, as well as the implementation of the new designer selection process, which will require more staffing to manage the mid-level projects. He said they need a reasonable funding source that is tied to this area, that doesn't necessarily rise and fall with the amount of projects, but does give some solidity to the ability to build a professional staff from the State Architect to Real Property management all the way through, which is an ongoing need that they have. As a suggestion, he said they always have a considerable amount of debt service funding available that is a recurring appropriation. Once a project is completed, it gets transferred on a non-recurring basis into the regular budget and helps fund non-recurring projects, which are often capital projects, so it's not an inappropriate use of those funds. He said if they could think of designating an appropriate amount that would be used to make sure that they were able to do what needs to be done in this area, it would give them the solidity of an approach going forward. Following Commissioner Goetz's comments, Secretary Hargett's motion was seconded and passed without objection.

With it being Commissioner Goetz's last meeting, Treasurer Lillard read a summary of Commissioner Goetz's career from the Tennessee Report. "Commissioner Goetz was appointed by Governor Bredesen in January 2003 and was the only person to serve as Commissioner of Finance & Administration; he helped restore credibility to the State's budgeting process; regained control of the TennCare spending; implemented the

Cover TN programs; and helped restore top credit rates from the major credit rating agencies to the State. In light of that, Treasurer Lillard said they ought to think about appropriating money for a set of Superman tights. He then read the following quote by Commissioner Goetz: "It has been a privilege to serve Governor Bredesen and the State for nearly eight years and to have served so many talented and dedicated public servants..." and Treasurer Lillard said he was sure he was referring to the Constitutional Officers. He then thanked Commissioner Goetz for his long and distinguished career to the Building Commission and to the people of Tennessee. Commissioner Goetz thanked Treasurer Lillard for his comments and stated that one of the greatest things about serving in this role has been the people with whom he had the chance to work. He said the public doesn't always appreciate how much work public servants do and how difficult it is and how well they do it. Secretary Hargett thanked Commissioner Goetz for a job well done. He said he always emerged wiser from the conversations they had had over the years and he will be missed.
